

St10525416@rcconnect

Improvements:

1. SEO & Accessibility

- Added unique `<meta name="description">` and `<meta name="keywords">` tags to every HTML page
- Added descriptive `alt` attributes to all images for screen readers + SEO
- Used semantic HTML5 tags: `<header>`, `<nav>`, `<main>`, `<section>`, `<footer>`

2. Interactivity & UX

- Embedded *interactive Google Maps* on contact page using `iframe` embed
- Implemented *CSS-only Gallery Lightbox* on products page — click image to view larger, click background to close
- Added `: hover` effects and `transition` for smoother user experience on buttons/images

3. Form Improvements

- Added `<label for="id">` elements that reference each form input using `id` attribute — improves accessibility
- Added `required` attribute to essential form fields for client-side validation

4. Documentation

- Created `README.md` with project description, features list, student details, and live site link

- Created `CHANGELOG.md` to track version history and updates made for Part, Part 2, Part 3
- Used meaningful commit messages when pushing to GitHub

5. Deployment

- Connected project to *GitHub repository* for version control:
`https://github.com/2kop ...`
- Deployed live site using *Netlify* with continuous deployment: `https://st1052 ...`
- Ensured site is mobile-responsive using CSS media queries

6. Code Quality

- Fixed file/folder structure issues to ensure all paths work correctly
- Named images descriptively instead of `img1.jpg`, `img2.jpg`
